

**County**

- 1 Occurrence and pathways of human viruses in deep municipal wells: Dane County | CONTACT: Kenneth R. Bradbury
- 2 Hydrogeology of Dane County | CONTACT: Kenneth R. Bradbury
- 3 Effects of unsewered subdivisions on groundwater: Dane County CONTACT: Kenneth R. Bradbury
- 4 Delineation of contributing areas for springs providing habitat for the endangered Hine’s emerald dragonfly: Door County CONTACT: Kenneth R. Bradbury
- 5 Investigation of groundwater movement through thick clayey lake sediment: Outagamie County | CONTACT: David J. Hart
- 6 Monitoring water-level recovery of deep wells following construction of a water-supply pipeline to Lake Michigan: Brown and Outagamie Counties | CONTACT: David J. Hart
- 7 Geophysical methods for detection of septic effluent: Portage and Dane Counties | CONTACT: David J. Hart
- 8 Fox River valley arsenic project: Winnebago and Outagamie Counties | CONTACT: Madeline B. Gotkowitz
- 9 Water-use data in Wisconsin: Sauk and Waukesha Counties, CONTACT: Madeline B. Gotkowitz
- 10 Development of a groundwater flow model in the vicinity of Geneva Lake: Walworth County | CONTACT: Madeline B. Gotkowitz
- 11 Groundwater resources of Iowa County | CONTACT: Madeline B. Gotkowitz
- 12 Groundwater quality inventory: Chippewa County | CONTACT: Frederick W. Madison

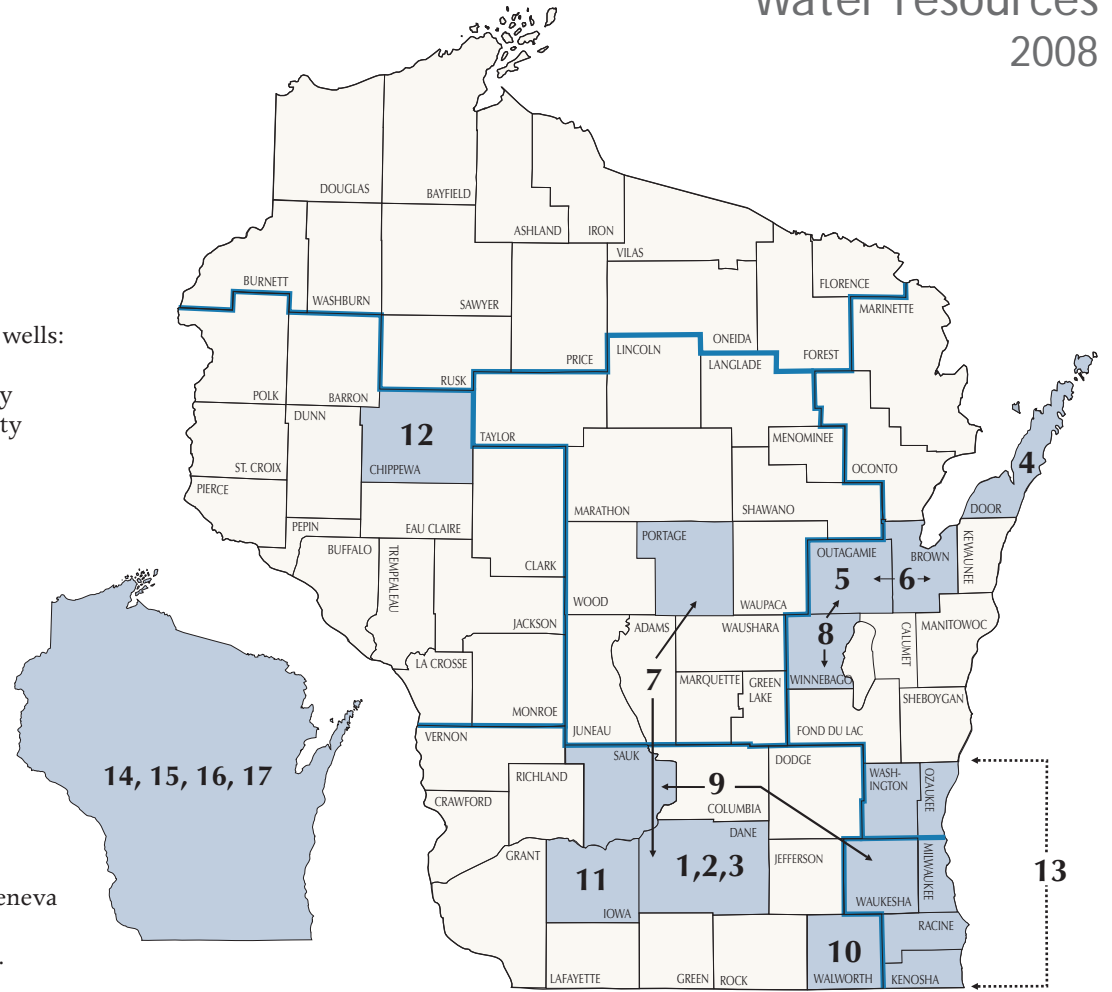

**Regional**

- 13 Hydrogeology of southeastern Wisconsin: Kenosha, Milwaukee, Ozaukee, Racine, Walworth, Waukesha, and Washington Counties CONTACT: Kenneth R. Bradbury
